PRANAY PUTHUMBAKA

PRODUCT DESIGNER | B2B SAAS • ENTERPRISE SAAS • ERP • FINTECH • MOBILE APPS
Hyderabad, India | +91 8688952435 | pranaydesigner03@gmail.com | Portfolio | LinkedIn

PROFESSIONAL SUMMARY

Product Designer with experience designing **B2B SaaS**, **Enterprise SaaS**, **ERP**, **fintech**, and mobile products, including **My Jeweller 24K** and **Store 24K**. Designed **15+ ERP modules/features** across complex jewellery retail workflows, covering user flows, wireframes, prototypes, high-fidelity UI, and reusable design systems. Skilled at translating complex business requirements into scalable UX while collaborating with product, engineering, and stakeholders in Agile/Scrum teams.

PROFESSIONAL EXPERIENCE

Cixcent Technologies, Hyderabad — Feb 2026 – Present

Product Designer

ERP24K: Jewellery Retail ERP Platform — *B2B SaaS, Enterprise SaaS, ERP, Retail Technology*

- Partnered with Product Managers, clients, and stakeholders during requirement gathering, translating complex business requirements into user flows, information architecture, and scalable UX for a B2B/Enterprise ERP platform.
- Designed UX and UI across **15+ ERP modules/features**, creating end-to-end user flows, wireframes, prototypes, and high-fidelity interfaces for complex jewellery retail, operational, and business workflows.
- **My Jeweller 24K — Customer Mobile App:** Designed the customer-side mobile app integrated with **ERP Schemes** and **Digital Savings**, connecting customer-facing journeys with backend ERP processes.
- **Store 24K — Mobile App:** Designed the ERP-connected mobile app covering **Inventory**, **Orders**, and related operational workflows, keeping ERP and mobile experiences consistent.
- Designed the **Digital Savings** module end-to-end across ERP web and the customer B2C mobile app, including Redeem Request, Issue Redeem, and Redeem History workflows.
- Led the design of **Share Catalogue**, enabling jewellers to create and share digital product catalogues with consistent experiences across ERP web and mobile.
- Built reusable Figma components and design patterns, maintained UI consistency, and prepared developer handoff specifications in Jira in Agile/Scrum sprints.

Loans 24K: Retailer Loan Management Application — *Fintech, Web Application*

- Designed **200+ screens** for a retailer-focused fintech and loan management application, covering complex financial workflows and data-driven interfaces.
- Designed end-to-end user flows for Loan Estimation, Loan Top-Up, Loan Release, and customer loan-management workflows, turning complex financial requirements into clear experiences.
- Designed the Loan Dashboard, key performance metrics, and Financial Accounting interfaces for presenting financial and operational data.
- Created reusable UI patterns and components for consistency across a large multi-workflow product.

PERSONAL PROJECTS

TSRTC Gamyam Redesign — *Mobile App Case Study* — View Case Study

- Redesigned the public-transport ticket booking experience using user research, user flows, wireframing, prototyping, and usability testing, including an Aadhaar-based verification flow for the TS Women free-ticket scheme.

Pocketly: Gen Z Money Management App — *Mobile App Case Study* — View Case Study

- Designed a mobile-first Gen Z money-management experience using personas and journey mapping, covering income, expense, savings-goal tracking, budgeting, and financial visualization.
